

JCDecaux

Position: EHSQ Lead & IMS Coordinator
Department: Operations
Location: Based in Dublin, with locations across all of Ireland

Company Overview

This is an excellent opportunity to join Ireland's leading Out of Home Media organisation, delivering audiences on outdoor displays in traditional, scrolling and digital formats across Ireland. With a strong reputation for safety, quality, and operational excellence, the company is seeking an experienced EHSQ Lead to drive industry leading Health, Safety, Environment, and Quality standards across its Irish operations.

Details

Position: EHSQ Lead & IMS Coordinator

Reports to: Operations Manager

Salary & Benefits:

- The Remuneration Package will have a range of between €65k and €75k, commensurate to experience
- Company Pension
- Private Health Insurance
- Life Assurance
- Open to ongoing education progression

Role Overview

As EHSQ Lead, you will take full responsibility for developing, implementing, and monitoring the company's integrated Health, Safety, Environmental, and Quality management system across multiple locations in Dublin and other locations in Ireland. Devise a strategic company development pathway and ensure full compliance with applicable legislation and industry best practice.

Key Responsibilities

- Lead and manage the company's EHSQ strategic development pathway across its locations and departments
- Ensure full compliance with applicable health & safety legislation and environmental regulations
- Develop, implement, and continuously improve EHSQ policies and procedures
- Conduct regular site audits, inspections and risk assessments
- Investigate incidents, identify root causes, and implement corrective actions
- Provide guidance and support to the management team on EHSQ matters

- Deliver training, inductions, toolbox talks and awareness programmes to staff and contractors across the various work activities
- Correlate, record, monitor and report on EHSQ performance metrics to senior management
- Promote a positive safety culture and continuous improvement environment
- Liaise with regulatory authorities, clients, stakeholders, and external auditors as required

Candidate Requirements

- Third-level qualification in Occupational Health & Safety, Environmental Management, or related discipline
- Minimum 5+ years' experience in an EHSQ leadership role
- Strong knowledge of H&S legislation and environmental compliance requirements in ROI & Northern Ireland
- Experience of managing ISO standards (ISO 9001; ISO 14001, ISO 45001 and ISO 50001)
- Excellent communication skills both verbal and written, excellent interaction skills, leadership and stakeholder management skills
- Strong analytical and problem-solving abilities
- Ability to influence and drive behavioural change across various work activities / participants
- Professional membership (IOSH / NEBOSH or equivalent) desirable
